#### SUPPLEMENTARY INFORMATION:

*Agency:* USDA, AMS.

*Title:* National Bioengineered Food Disclosure Standard.

*OMB Number:* 0581-0315.

*Expiration Date of Approval:* April 30, 2022.

*Type of Request:* Extension and revision of a currently approved information collection.

*Abstract:* The U.S. Department of Agriculture (USDA) administers the Agricultural Marketing Act of 1946 (Title II of the Act of August 14, 1946). P.L. 114-216 amended the Agricultural Marketing Act of 1946, directing the Secretary of Agriculture to establish the National Bioengineered Food Disclosure Standard (7 CFR 66) for disclosing certain foods that are bioengineered or contain bioengineered ingredients. The final rule (National Bioengineered Food Disclosure Standard [7 CFR 66]) fulfils USDA's need to establish requirements and procedures to carry out the new standard. P.L. 114-216 also addressed Federal preemption of State and local genetic engineering labeling requirements and specifies that certification of food under USDA's National Organic Program (7 CFR 205) were considered sufficient to make claims about the absence of bioengineering in the food. AMS gathered industry input and conducted rulemaking on the National Bioengineered Food Disclosure Standards. In accordance with the Paperwork Reduction Act of 1995 (44 U.S.C. 3501-3520), AMS is publishing this a 60-day notice on reporting and recordkeeping requirements related to the National Bioengineered Food Disclosure Standard. This collection represents a total burden of 353,952 hours.

*Estimate of Burden:* Public reporting burden for this collection of information is estimated to average 2.3 hours per response.

*Respondents:* Importers, food manufacturers, and food retailers.

*Estimated Number of Respondents:* 155,098.

*Estimated Total Annual Responses:* 155,098.

*Estimated Number of Responses per Respondent:* 1.

*Estimated Total Annual Burden on Respondents:* 353,952 hours.

Comments are invited on: (1) whether the proposed collection of information is necessary for the proper performance of the functions of the agency, including whether

the information will have practical utility; (2) the accuracy of the agency's estimate of the burden of the proposed collection of information including the validity of the methodology and assumptions used; (3) ways to enhance the quality, utility, and clarity of the information to be collected; and (4) ways to minimize the burden of the collection of information on those who are to respond, including the use of appropriate automated, electronic, mechanical, or other technological collection techniques or other forms of information technology.

All responses to this notice will be summarized and included in the request for OMB approval. All comments will become a matter of public record.
